TECHNICAL DATA SHEET

Product Name : Grease Monster Contact: Johan Teubes
Product Identification : Powerful Water Based Degreaser Tel: 041 451 1712

Product Description	New generation water RINSABLE Heavy Duty Degreaser		
Application Areas	<ul style="list-style-type: none"> • Used to degrease new and/or weathered Metals. • Can be used as a Heavy-Duty Floor Degrease and Cleaner • Dip Tank Cleaning of Dirty Metal Components -you can dip the Components in a Bath of Grease Monster, Then wash off with Clean water 		•
Product Features	<ul style="list-style-type: none"> • An excellent slightly Etching Degreaser for new and weathered Metals • Improves adhesion of primer. • Low Risk of Fire • Very Powerful 		•
Product Data	Resin Base	N/A	
	Drying Time	N/A does not form a film	
	Spreading rate	10-12 SQM per liter Although the spreading rate will vary with porosity and type of substrate,	
Application Details			
• Mixing	Always stir well before use.		
• Application Method	Spray bottle, dip tank, high pressure cleaner, mop and bucket, brush, knapsack sprayer.		
• Thinning	Use neat or 1:4 up to 1:10 as required depending on degree and type of soiling.		
• Cleaning/Rinsing	Water.		
• Application	<ul style="list-style-type: none"> • With a brush/mop/sprayer, apply a generous coat of Grease Monster to the area that needs degreasing, work in the chemical with a brush/scrubbing pad, single disc etc., preferably allowing a few minutes contact time. Wash off the Cleaner with Copious amounts of water. • Repeat the process if water breaks grease Free. • Allow to Metal to dry then Prime. • This product is ready for use undiluted, thinning with water will reduce its Efficacy depending on the type of cleaning being done. • Application equipment cleanup is with clean tap water. • This product should never be mixed with other products. • Always wear Goggles, Gloves, and apron when Using Grease Monster • Do not apply before 09:00 and after 16:00 in the winter. 		•
Surface Preparation			
• Rusted Metal	<ul style="list-style-type: none"> • Affected areas need to be cleaned back to bright metal by hand mechanical or blast cleaning. • See application section above 		•
• New Metal	<ul style="list-style-type: none"> • Degrease surfaces with Grease Monster to remove the manufacturer's grease protective layer. This process is repeated until the surface is water break free. • After drying, the whole substrate can then be Coated with an appropriate Primer/Top Coat system if required 		•
Color Range and Quantities	<ul style="list-style-type: none"> • Clear Only • Available in 750ml 5lt and 25 liters. 		•
Precautions	<ul style="list-style-type: none"> • This Product is not Flammable, but it is Corrosive 		•
Disclaimer	ChemBlend (Pty) Ltd cannot be held liable if the product fails due to improper surface preparation or application.
